DEPARTMENT OF GEOGRAPHY

DEPARTMENTAL PROFILE

A) Scope and Importance of the Department:

Geography is a scientific field that studies the earth's landforms, ocean, environment, ecosystem, etc. It also studies the relationship between men and their environments. The Word 'Geography' was coined by an Ancient Greek scholar Eratosthenes in 234 B.C. It originates from two Greek words; one is Geo and another is Graphe. Geography is the science of all sciences. It involves the study of physical as well as social sciences. Its scope ranges from the physical sciences of Astronomy, climatology, Geology through natural histories of Botany and Zoology to the human studies of Anthropology, Ethnology, Sociology, and History. Thus, the scope is in various disciplines, like armed services, environmental management, water resources, disaster management, meteorology and planning, and various social sciences. Apart from that, a geographer can help in day-to-day life like tourism, commuting, housing, and health-related activities.

Technology, use of computers and software, has offered better opportunities in data collection, interpretation, analysis and presentation. Every time uses GPS and GIS: Use of GPS and GIS has become a mandatory aspect of geographical studies.

The value of geography or its importance includes the following:

- It enables man to have a better understanding of his environment.
- Geography raises issues, problems, and solutions vital to modern society.
- It consists of knowledge of the world around us i.e. it enables us to study the ways of lives of other people in other parts of the world.
- A well-trained geographer can perform many vital roles in the politics and socio-economic sector of society. He can use his geographical knowledge in such areas as urban, economic, rural, or regional planning.
- Geography helps us to understand some other related topics in physics, chemistry, biology, economics, history, mathematics, etc.
- It enables us to have a better understanding of physical things around us such as vegetation, climate, rivers, soil, oceans, mountains, etc.

- It enables us to choose a career from which we can earn a living.

Academic Excellence:

The Geography Department strives for academic excellence by offering rigorous and up-to-date curricula. The department focuses on core subject such Physical Geography , Human Geography and GIS , GPS computerised techniques use in geography. Department also give the advanced knowledge about Geoinformatics branch which is include in Geography. By providing a strong foundation and advanced knowledge, the department prepares students for careers in both industry and academic.

Research and Innovation:

A key aspect of the department's scope is its emphasis on research and innovation. Faculty members and students engage in cutting-edge research projects.

Interdisciplinary Collaboration:

The scope of the department extends beyond traditional boundaries, promoting interdisciplinary collaboration. It actively seeks partnerships with other departments, such as computer science , mathematics,physics,electronics,botany,zoology,recognizingthat Geography intersects with various fields.

Industry Engagement:

The Geography Department recognizes the importance of industry engagementtobridge the gap between academia and the professional world. It establishes strong relationships with industry partners, creating opportunities for internships,industrial training, and guest lectures. Industry experts contribute to the department's curriculum development, ensuring that it remains relevant and aligned with the evolving needs of the job market. These collaborations also open doors for potentialjob placements, creating a pathway for students to launch successful careers in thetechnology industry.
